trusted personal advisor, Henry Morgenthau Jr.

Morgenthau, Friday, will become the actual, if not titular head of the treasury department, while Secretary Woodin, whose resignation the chief executive declined to accept, takes a leave of absence and goes west in search of rest and health.

Morgenthau will be sworn in as undersecretary and assume his duties as active head of the treasury Friday morning at 10:30 o'clock.

Supports President.

Morgenthau received newspapermen late today and asserted his unwavering support for the Roosevett policy of buying gold here and abroad in the expectation of forcing commodity prices upward.

in the expectation of forcing commodity prices upward.

Otherwise, he declined to comment on fiscal and monetary subjects.

He said he hoped to take with him to the treasury Herbert Gaston, who has been his first lieutenant both as New York state commisioner of conservation and governor of the farm credit administration.

To make room for Morgenthau, Dean Acheson, youthful undersecretary of the treasury, submitted his resignation, and Mr. Roosevelt accepted it with a word of regret and appreciation for his service.

The president announced these changes today to a group of correspondents assembled before his pa-

The president announced these changes today to a group of correspondents assembled before his paper-laden desk. In a tone of deep feeling, Mr. Roosevelt read in their entirety letters exchanged between himself and Woodin.

"You know that every policy of yours has had and still has my devoted support," the cabinet officer wrote in part, "and I have never doubted that you are the one man that can lead this country out of its difficulty."

Rift Is Seen.

This statement was obviously aimed at those who, nevertheless, immediately interpreted the developments as indicating a rift between the president and the secretary, an asserted sound-money man, and as a sign that inflation lay ahead.

Those who clung to this view pointed to Morgenthau's close association with Professor George F. Warren, author of the present effort to force commodity pollar, based upon a changeable gold content.

\$1.500,000 Allotted for **Dock Off Atlantic Coast** To Test Feasibility of Ocean Air Line Plan.

WASHINGTON, Nov. 15. - (AP) Secretary Roper said today the public works administration had allotted \$1.500,000 for building a seadrome, a quarter the requested size, 500 mile off the Atlantic coast for experimenta

If the experiment succeeds, Roper said full sized seadromes, 1,250 feet long, would be placed at 500-mile in tervals across the ocean to Europe.

Roper estimated that about four months would be required to build the demonstration section. The entire air way would cost \$30,000,000 and about 80 per cent of the total would go for labor, employing 10,000 men for two

The development is also dependent upon the approval of the state department, he said, adding this was expected momentarily.

"Studies conducted by the department's aeronautical experts show that an airway of these floating islands III Meets Death When will assure efficient, safe, dependable and profitable 24-hour mail, passenger and express airplane service between the principal cities of the Atlantic

the principal cities of the Atlantic seaboard and western European capitals," Secretary Roper said.

"The landing facilities of the Atlantic airway would be made available to any commercial aviation company or individual of any country on equal toll schedules, and these toll charges it is estimated will more than pay the operating expense of the floating islands.

You would have been surprised to hear him say then that if there was anyone present who did not want to go on that was the time to speak up.

You would have craned your neck as the other guests did when Assistant Secretary of the Treasury Acheson spoke up. POINTING There was one who did NOT crane his neck. That was Mr. Roosevelt. There are reasons for believing that he looked right at Acheson when he invited resignations.

For some time, the White House had been disturbed by published reports that treasury officials were out of line with the gold policy. It did not mind opposition expressed in the private councils. It did hate to read in the newspapers every day that the conservative treasury crowd was growling underneath.

servative treasury crowd was growling underneath.

Several days ago the White House privately investigated the source of these published assertions. As a result of that investigation, Mr. Roosevelt determined to rub out any sour notes.

WOODIN The leave of absence for Treasury Secretary Woodin was only a neat excuse.

Woodin is gone for good. He knows it and Mr. Roosevelt knows it. When Woodin said good-bye to his closest friends, he

"I guess I won't be seeing you again."

He has not been secretary of the treasury for five months. In that period he has spent less than 14 days at his treasury desk. He was raised on the gold standard as were his father and grandfather before him. No matter how much he denies it, everyone knows this money policy is just another bug in his throat.

Twenty-five cents a day is not a high wage even in a depression, neither was it back in 1893, but it was enough to start the vice president of a great retail chain organization of grocery stores on his career.

Wednesday night the vice president was guest of honor at a banquet here in the Bütmore hotel celebrating his fortieth anniversary as an employe of that organization. The guest was Benjamin Franklin Vinson, and the organization was the Great Atlantic & Pacific Tea Company.

Scated in the place of honor, Mr. Vinson looked into the faces of executives and other employes of his organization, many of whom he has known for years. They came to Atlanta to pay their tribute from all over the south.

Among the visitors who journeyed

Among the visitors who journeyed a long distance to do honor to a remarkable executive was C. O. Adams, president of the southern division of the company. Others were represented by telegrams and letters of felicitation.

Born On a Farm.

Mr. Vinson was born on a farm near Milledgeville, on September 27, 1875, and was educated at the Georgia Military College. At 18 he decided he would go out into the world and seek his fortune. There was nothing on the farm to interest him. Instead of going west, the usual procedure at that time, he headed in an easterly direction, and brought up in Savannah.

STOP THAT ITCH
In One Minute
D. D. D. Prescription Speeds Relief

It is actually surprising to see how quickly, pure, cooling, fiquid, antiseptic D. D. D. Prescription relieves the itching tortures of eczema, scales, eruptions, rashes and other skin afflictions. Thirty years success recommends this remedy, originated by Dr. D. D. Dennis. Its gentle oils penetrate the skin, soothing and healing the inflamed tissues. No fuss—no muss. Clear, greaseless and stainless—dries up almost immediately. Try D. D. D. Prescription today. Stops the most intense itching instantly. In this position of greater responsibility Mr. Vinson's duties consisted of auditing stocks and general supervision of old line stores throughout the southern territory.

Another promotion followed when Mr. Vinson was made superintendent and located at Savannah, where he opened the company's economy stores. Promotions followed regularly. The the company established a warehouse to take care of its growing business. Clear, greaseless and stainless—dries up almost immediately. Try D. D. D. Prescription today. The A. & P. about that time decided

direction, and brought up in Savaunah.

After the usual foot-sore search for work, he found a berth with an A. & P. store—an "old line" store—as a grocery clerk or general helper. His pay to start with was 25 cents a day. It wasn't much but it was a start, and young Vinson took hold with a vim.

That was 40 years ago. Now as head of the largest chain store group in the south, Mr. Vinson is doing more to help the farmer of the south than most farmers.

Above, B. F. Vinson, vice president of the southern division of the A. & P., is shown in front of a bower of flowers sent to him by well wishers. Below he is seen again with, left to right, J. A. Mechan, W. W. Schotanus, Ernest G. Clifford, W. A. Landers. V. P. Barnes, J. C. Peavy. Harry L. Girtman, L. C. Berry, R. L. Moore and Darwin W. Clanton. The small picture is of O. C. NICE PEOPLE

teach their children early the language of laxatives

BABIES are babies the world over.
Young parents can't raise children without passing through ceytain stages of care and worry that are really close to Nature. Intelligent people . . . realize that children must be educated concerning natural functions. They don't sidestep responsibility. They teach their children . . . in a nice way . . . the language of laxatives.

The first intelligent question about a laxative is "How does it work?"
Does it work suddenly, violently? Or does it work smoothly and naturally? And now we want to ask you some-

And now we want to ask you some-thing. Can you think of anything more smooth and natural than the action of saliva when you chew your food? Then why not chew a laxative in the same way, and teach the children as well?

Just go to the nearest drug store and ask for Feen-a-mint, the chewing laxative. You chew it like any minty chewing gum and the saliva helps to carry this laxative right into the intestinal tract, just as it helps to digest

H. H. Altman, assistant general superintendent, presided at the banquet and introduced the speakers, who spoke of their delightful association with Mr. Vinson. Dr. W. A. Shelton soffered the blessing, and talks were made by O. I. Black, general superintendent, Birmingham unit; R. M. Smith, vice president in charge of the Jacksonville unit; W. A. Landers, sales manager, Atlanta; Scot Johnson, supervisor, Knoxville, and formerly sales manager here; W. M. West, president of the A. & P. Managers' Benefit Association; Judge John L. Hard work then, as now, was the characteristic of Mr. Vinson's temperament. It counted with the manager of the old line store in Savannah. Pretty soon he was raised to \$4 a week, quite an advance from a percentage standpoint.

His executive ability showed itself even at that early age. This ability even at that early age. This ability even at that early age. This ability tendent of outside stores, which then were located at points from Tennessee, south business in Ten

This quality he is constantly seeking in young men.

In his early experience, executives were men well into middle age. Mr. Vinson saw the possibilities of younger men. Now he has executives ranging from 23 to 35 years old, and some of these are vice presidents.

He also decided early that men to work well must be happy in their work. He talks to them, and from them finds what they like to do best. If they are not doing the kind of work they like, he has them transferred to more congenial posts.

With all his work, he has always found time for the various men who work under him. They come to him with their trials and tribulations. They never find him too busy to listen.

Secrets of Success.

Mr. Vinson's success has been due to his ability to start with, coupled with his loyalty to the company, his belief in the merchandise it sells, hard work and unselfishness, and—this is important—his fine consideration of those who work with him. At no time does he tell a worker that he must do a certain thing. His idea is to show the worker what to do, then sell him on the idea that he wants to do it.

to show the worker what to do, then sell him on the idea that he wants to do it.

He has always been charitable to the man who is down. Always a heavy contributor to worthy charities, he also helps the unfortunate, not only with money but by showing him how he can help himself.

Several years ago his employes, who are devoted to him, wished to show their devotion by contributing toward a Christmas present for him. He heard about it, and asked that the fund for the present be turned over to him for donation to charity. He considered this the greatest gift that could be made to him.

He was married on November 28, 1900, when almost 33 years old, to Miss Celestine Roach of Statesboro, Ga. She attended school in Statesboro and Savannah, where young Vinson met her at church.

They were married in Atlanta, where Miss Roach was visiting her sister, Mrs. George W. Williams, Mr. and Mrs. Vinson have a daughter. Mildred, who married Darwin Clanton, and a grandchild, Helen Vinson Clanton, of whom he is very fond.

IN HOSPITAL AT TUCSON peal.

Kresel, who in 1930 crusaded with Seabury against corruption in the magistrate's courts, was allowed his liberty on \$100,000 bail, pending appeal.

The specific charges against Kresel grew out of an involved transaction whereby funds of one of the bank's affiliates were used to buy shares in a second affiliate, It was charged that the transaction, which was part of an \$\$,000,000 shift of funds, set up a fictitious value gof the assets of one affiliate and that then this false value was used as the basis for loans.

Kresel, whose frequent clashes with Max D. Steuer, another prominent criminal lawyer, have attracted attention in the state's courts for years, contended that he had not been informed about the transaction on which his indictment was based.

The state charged that Kresel, ass counsel, against the advice of the state banking department, advised Singer and Marcus to go ahead with the transaction.

A doctor will tell you that the careless choice of laxatives is a common cause of chronic constipation.

Any hospital offers evidence of the harm done by harsh laxatives that drain the system, weaken the bowel muscles, and even affect the liver and kidneys.

Fortunately, the public is fast returning to laxatives in liquid form. The dose of a liquid laxative can be measured. The action can thus be controlled. It forms no habit; you needn't take a "double dose" a day or two later.

Dr. Caldwell's Syrup Pepsin has the average person's bowels regular as clockwork in a few weeks' time. Why not try it? Some pill or tablet may be more convenient to carry. But there is little "convenience" in any cathartic which is taken so frequently, you must carry it with you, wherever you go!

Its very taste tells you Dr. Caldwell's Syrup Pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. All druggists, ready for use, in big bottles. Member N. R. A.

Officials Hear Hopkins Outline Plan To Give Work to 2,000,000.

WASHINGTON, Nov. 15 .- (AP)-A demand that politics be laid aside and speed be applied to administering relief under the civil works division

The officials listened to Hopkins for an hour as he read and then explained the rules under which the plan would operate. At noon regional representatives of the relief administration, with which the civil works division is coupled, explained in more detail the plans for various states at luncheon conferences. Hopkins urged haste in getting under way the projects, all of which he said were to use a maximum of day labor. Ickes called the plan one that would tide the nation over the winter until the public works administration rules as to hours of work and wages would govern. and speed be applied to administering relief under the civil works division was voiced before 500 state and city officials today by President Rooseveit.

Speaking to the crowd that had assembled in the White House, the chief executive said reports had come to him that politics had crept into the administration of relief.

"I simply want to tell you that your national government is not trying to gain political advantage one way or another out of the needs of human beings for relief," he said.

"I expect the same spirit from every governor, and I expect the same spirit from every governor, and I expect the same spirit from every developed and the relief administration.

"I want it understood that no person connected with the administration of this \$400,000,000 will in any instance ask whether a person needing work is a republican, a democrat, a socialist or anything else.

Work for 4,000,000.

"Our effort is to put 4,000,000 men back to work in the winter months so that we can honestly say as a nation that this winter will not be likelast winter or the winter before."

The president was referring to the civil works plan that already had been outlined to the state and city officials by Harry L. Hopkins, the civil works administrator, and Secretary Ickes administrator, and Secretary Ickes public works administrator. Both Hopkins and Ickes were applauded as they told of the plan they said was designed to hold back poverly and destitution until the \$3,300,000,000 public works program could get fully under way.

The officials listened to Hopkins for an hour as he read and then explained the rules under which the plan would operate. At noon regional representatives of the relief administration, with which the civil works wison is one that the said. In outlining the plan, Hopkins said the public works administration rules as to-hours of work and wages would govern. These forbid working more than 30 hours a week except that time lost because of bad weather may be made up within 20 days and on projects where complete housing of employes is necessary they may work 40 hours.

Minimum wages were set at 40 cents an hour for common labor and \$1 for skilled labor in the southern zone, which includes South Carolina. Georgia, Florida, Arkansas, Alabama, Mississippi, Louisiana, Arizona, Oklahoma, Texas and New Mexice; 45 cents and \$1.10 in the middle zone, consisting of Delaware, Maryland, Virginia, Tennessee, Colorado, Utah. California, North Carolina, West Virginia, Kentucky, Missouri, Kansas, Nevada and the District of Columbia, and 50 cents and \$1.20 in the northern zone, which includes Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Ner Jersey, Indiana, Wisconsin, Minnesota, Nebraska, Wyoming, Oregon, South Dakota, Idaho, Pennsylvania, Ohio, Michigan, Illinois, Iowa, North Dakota, Montana and Washington.

Officials saidsthat beginning to morrow the 1re 2,000,000 men to go onto these projects would be transferred to the full 30-hour basis, the complete transfer to take place within the next three or four days. These are men now working a few hours a week to obtain money and food for their families.

Immediately afterward, the plans call for hiring 2,000,000 more men through the United States employment service. These would be men without jobs but not on relief roles.

Hopkins urged that in considering projects attention be given to providing jobs for engineers, and other skilled workers and for, women.

MACON. Ga., Nov. 15.—The Macon annual conference of the A. M. E. church. is in session here in the St. Paul A. M. E. church. Rev. T. J. Davis, D. D., is pastor. The devotionals were conducted today by Bishop W. A. Fountain, A. M., Ph. D., assisted by the presiding elders of the conference.

David Norris and C. A. Wingfield, press news reporters,
Bishop Fountain's annual address to the conference dealt with "church fundamentals" and a plea to "line up with the NRA." He urged negroes to buy homes and beautify those they have. He closed with the declaration that "the African Methodist Episcopal church, has always had an ambitious program—she stands for self-help, self-respect, self-initiative and self-determination."

He closed with the declaration that "the African Methodist Episcopal church, has always had an ambitious program—she stands for self-help, self-respect, self-initiative and self-determination."

The finance committee was named as follows: Rev. E. Greggs, J. N. Miller, David Norris, T. W. Evans, J. T. J. Linton, A. J. Harris, M. A. Fountain, H. V. Green, T. J. Davis and W. F. Boddie.

The following were applicants for admission: J. B. Epton, J. Jackson, Joseph Mosley, J. T. Little, R. C. Williams, A. Threece, O. C. Hardick and J. W. Walker. For deaconorders, Joseph Patterson.

Drs. E. Greggs, T. W. Evans, J. N. Miller and David Norris, as presiding elders of the conference, made first drafts of district reports followed by the pastors' reports of charges which showed a great finincial increase over last year.

The conference evangelistic anniversary was observed Wednesday night. Dr. J. I. Stringer was director, assisted by Revs. C. C. Crouch and J. W. Dennis, of the Southwest Georgia conference. The sermon was by Rev. L. R. Braboy, of Orlando. Fla.

Visitors include Drs. J. L. Rutler, H. J. Peeples, G. H. Dunn, W. H. Warley, E. J. Odum. W. L. Renfroe, J. T. Leath, J. L. Shropshire, A. A. Duncan, F. M. Johnson, J. H. Bryan and J. H. Jones.

Plea Issued to European Nations To Return to Geneva Conference.

GENEVA, Nov. 45 .- (P)-An urgent appeal to foreign ministers of the principal European nations to a-semble in Geneva and try to salvage disarmament discussions was issued today by executives of the world dis-

armament conference.

Arthur Henderson, the president, Arthur Henderson, the president, followed up his recent threat to resign unless the nations changed their attitude on disarmament with the warning that the situation was grave. Joining him in the communications were Nicholas Politis, former president of the League of Nations assembly, and Dr. Eduard Benes, vice president of the conference and head of the security commission of the league.

The notes, one of which went to Germany, asserted that it was impossible to proceed without the presence of responsible leaders, and declared: "The settlement of the disarmament "The settlement of the disarmament difficulties requires first the solution of certain political problems. Officers and reporters will be in a position to present the requested reports only when they have established contact with the heads of their delegations."

If today's appeal brings no results, it was considered probable that Mr. Henderson will demand a meeting of the League council and submit his resignation as chairman.

Cermak's Grandchild Said Object of Plot

MIAMI, Fla., Nov. 15.—(P)—
Stories of an alleged plot to kidnap the three-year-old daughter of Mrs. Helen Cermak Kenlay, of Chicago, were made public here today by county authorities and drew a denial from Mrs. Kenlay at Chicago that threats had been made against her daughter.

County Solicitor Fred W. Pine made public the stories concerning the alleged kidnaping plot and also linked a reputed payment of \$5,000 to extortionists and a reputed attempt to kill W. W. Wood, local politician.

Hopkins urged that in considering projects attention be given to providing jobs for engineers, and other skilled workers and for women.

"Supervision over the works will be in the hands of state civil works administration and second in the hands of local civil works administration working with county relief administrators to promptly recommend that does not mean they may not utilize projects on roads," Hopkins replied.

Governor Talmadge, after the conclusion of the conference on civil works praised the plan to take men off of relief rolls and give them full-time employment as one of the most constructive steps the government has taken toward recovery.

Governing of Production. Supply, Tax Collections Considered.

WASHINGTON, Nov. 15,-(P)-Organization of a government corof this country is among the proposals nder consideration in administration

It was made clear that the purpose of such a corporation would be to control the production and supply and to simplify tax collections rather than to control detail sales.

No official would discuss details of the proposal, but the administration's intention to secure supervision and control over the source of liquor industry, whether through a federal corporation or through a distiller's code, was regarded as fixed.

George N. Peek, the farm administrator, said public hearings would begin soon on a code proposed by distillers to regulate production and distribution of liquor. The distillers inserted a pledge in the proposed code to aid in protecting dry states from the traffic.

Examination of legal ramifications is under way to determine how far such a code could go in giving the government control of the industry between the repeal of the cighteenth amendment, on December 5, and the time that congress enacts new legislation. The administration was repreing distributed this year to those who subscribe to the Chest fund.

An interesting feature about the thermometer at Five Points is that instead of announcements in terms of dollars, the "mercury," starting at the zero point where "60,000 will starve." instead of announcements in terms of dollars, the "mercury," starting at the zero point where "60,000 will starve." will steadily reduce in number until, reaching the topmost point, the success of the campaign will be proclaimed in the announcement that "None Will Starve."

City Must Do Its Share.

It seems, some of the workers pointed out, that among many solicited there is a misunderstanding regarding federal emergency relief funds.

"In this concettion," Mr. Horacek said, "the president has frankly stated that while "the federal government has inaugurated measures of relief, every local community must first do its share, and that no program of recovery can suddenly restore all our people to self-support. This clearly means that Community Chests and private charity must be supported, and carry not only the load of formeryears, but that which has been created and added by the depression."

Attention again was called to the recent statement of Ronald Raussom. amendment, on December 8, and the time that congress enacts new legislation. The administration was represented as leaning toward the code method of exercising federal supervision unless further canvassing disclosed the federal corporation to be ware desirable.

The president met for more than an hour today with his cabinet committee on repeal and with members of the ways and means committee of the house; the judiciary committees of both the house and the senate and the finance committee of the senate. The whole repeal situation was can-vassed, but no definite decision on any point was reached.

mission administering federal relief funds, in which he said:

"Federal emergency relief funds are for the relief of destitute unemployed. It is believed that these federal funds should be substantially supplemented with local funds provided for the sole purpose of relieving destitution resulting from unemployment. Lae work of the agencies administering these federal funds is entirely different from the work being done by the agencies administering funds subscribed to the Community Chest. Any idea that these federal funds are to take the place of local Community Chest funds is wholly erroneous and misleading."

Chairman Herbert Porter urged that each of the 2,500 volunteer workers attend the daily luncheon meetings and turn in their reports. Many, it was pointed out, had subscription announcements which would have tremendously increased the amount of the first days' drive had they been present. These, it was announced, will be given in at today's meeting.

NEW WRIT FILED HERE

Alphonse Capone, one-time "big shot" of the Chicago underworld, Wednesday made another move in search of freedom through a writ of habeas corpus.

Capone, through attorneys, obtained from Federal Judge E. Marvin Underwood, of the northern district of Georgia, an order requiring Warden A. C. Aderholt to show cause at 10 o'clock Saturday morning why a writ of habeas corpus should not be issued.

Once before Capone sought liberly through habeas corpus, but the cir-cuit court of appeals sustained Judge Underwood's ruling against the excuit court of appeals sustained Jurge Underwood's ruling against the exgangster, and no appeal was taken to the United States supreme court. The new petition is said to correct defects of the original pleadings pointed out in the decision of the appellate court. William E. Leahy and William J. Hughes Jr., of Washington, counsel for Capone, are expected to arrive here Friday night to join Attorney Frank Doughman in presentation of the case for Capone. Assistant Attorney-General McIver will represent the department of justice, and will be assisted by Assistant District Attorney Hiram Nichols.

The new petition is said to present a stronger case, with additional evidence. It sets forth the rulings made by Federal Judge Wilkerson in trial of the case in Chicago, giving his language in admitting, it was said, that in so far as the three-year statute of limitations was concerned the case was dead but holding that the six-

guage in admitting, it was said, that in so far as the three-year ratuite of limitations was concerned the case was dead but holding that the six-year statute applied.

Capone probably will not appear in court, Saturday morning, since the writ has not been issued and the ofly order in force is one requiring Warden Aderholt to show cause why he should not be required to produce Capone for a hearing on the question of his right to freedom, it was said. Issues involved in the writ probably will be argued, however, it was said.

C. OF C. RESOLUTIONS

One's desire to practice economy often warps the judgment, in the purchase of coal. Non-burning matter, such as slate, is like buying meat with a lot of bone. Chief is absolutely "boneless," hence the most economical for domestic use. Burns anywhere.

FIND YOUR OWN CAR ON THIS CHART. If your ear is not listed, see your dealer. He has a complete chart showing every car made. The amounts of Evercady Prestone required, as shown here, do not allow for the capacities of het water heaters. If you have a hot water heater, or if you need to protect your ear to any lower temperature, down to 60° below zero, consult your dealer.

The important thing in buying an anti-freeze is to figure cost to a definite

protection point, not the price per gallon. See how reasonably you can

get all-winter protection against freezing and rust with Eveready Prestone.

The same safe, all-winter antifreeze sold last year for \$4.45. Concentrated - not diluted or cheapened in any way.

HUNDREDS of cars on the street and in unheated garages soon will have frozen radiators, cracked engine-blocks, and big repair bills.

Boil-away anti-freezes-a makeshift at best

If you buy a boil-away anti-freeze, it will evaporate during the next warm spell and leave your car unprotected. You'll have the bother of continual testing and frequent refilling.

Formerly, boil-away anti-freezes, with all their faults, had one appeal - low initial cost. But today, at the new low price of \$2.95 per gallon, Eveready Prestone is within the reach of all. And, of course, in all-season cost it offers real economy. It won't boil away or heat up your motor-even during the warm days. It won't cause rust in the cooling-system. One filling will last you all season long.

How many "permanent" anti-freezes will last through the winter?

Rigorous laboratory tests have been conducted on many so-called "permanent" anti-freezes. For hundreds of hours, each product was run through an automobile cooling-system at a speed and engine-temperature exactly duplicating actual driving conditions.

Under this test Eveready Prestone was unchanged after 1000 grueling hours-25,000 miles of average driving-still giving full protection against freezing and rust. Other anti-freezes, in the same test, broke down and became definitely corrosive in from 50 to 200 hours.

Do not confuse Eveready Prestone with either alcohol or glycerine

Eveready Prestone is a patented productapproved by every car-manufacturer.

Many a can of "permanent" anti-freeze is nearly half water. Eveready Prestone is concentrated. It is your safest, most economical all-winter protection. Have it put in now.

An Absolute Guarantee

National Carbon Co., Inc., specifically guarantees that Eveready Prestone, If used according to directions, will protect the cooling-system of your car against freezing and clogging from rust formations for a full winter: also that it will not boll

away, will not cause any damage to car finish, or to the metal or rubber parts of the cooling-system, and that it will not leak out of a cooling-system tight enough to hold water.

ATLANTA, GA., NOV. 16, 1933. AID FOR SMALL BANKS.

Opportunity for a material system is presented in the agree-Corporation to purchase the notes and debentures of banks with small capitalization, making it thus possible for them to increase their capital stock to a point where they can become members of the federal reserve system.

Under the law creating the federal reserve, no bank with a capitalization of less than \$25,000 is eligible for membership. There are between 40 and 50 such banks in Georgia, and it is to open the way for these banks to gain the backing and securing of federal reserve membership that the debenture plan has been worked out,

It is, of course, optional with these banks as to whether or not they will take advantage of the opdo so in view of the protection ficult to understand. offered by the federal reserve system during the years of depression when non-member banks were closing their doors by the hundreds every month.

With the small banks as well as the large ones in Georgia members of the system, the state need fear no more epidemics of closing banks such as it has suffered during the past three years. The entire banking system will be on a sounder, safer basis.

Having the Right-of-Way Doesn't Salve Bruises If Somebody Hits You -By Robert Quillen-

Freedom, like a woman's chastity, cannot be qualified. A man is free or he is not. When you say he is free except for this or that, he is not free at all.

In a free land, where every man's freedom is guaranteed by the constitution, there is but one way to limit rights. As an individual, a man has every right permitted by his conscience.

As a member of organized society, his rights can be limited only by laws that represent the will of the whole people. Have free American citizens the right to organize, to bargain col-

Have workers a right to strike? Well, has any man the right to quit his job? If not, he is a slave. And if any man has the right to quit, then every man has the same right.

Have strikers a right to picket? Why not, if they break no laws and

trespass on no private property? Hasn't every man the right to walk the public highway? And hasn't every man the right to stop his neighbor, by peaceful means, and plead with him? He has. Should the labor department's cost of living index show a decrease for six consecutive months of 20 per cent or more under the index figure for the month in which the contract was signed, Tupelo may request a reduction in rates. Should the index figure show a 20 per cent or more increase for the same period, the Authority may request an increase.

Under the residence rate announced September 15, the power director said the average cost to a consumer in a fully electrified home would be 7 mills a kilowatt hour. The residence rates range from 3 cents a kilowatt hour for the first 50 kilowatt hours down to 4 mills for each kilowatt hour

TVA ANNOUNCES RATES Hitlerite 'Spiritual Dictatorship' Established Over German Art

By RUDOLF JOSTEN.

BERLIN, Nov. 15.—(P)—A Hitlerite spiritual dictatorship over every phase of German art was established today in the form of the "Reich's Chamber of Kultur."

Its principles were enunciated at a ceremony attended by Chancellor Hitler, other high government officials, diplomats, and artists by Dr Joseph Goebbels, nazi minister of propaganda and public enlightenment.

"It does not matter what means are applied." Dr. Gobbels said, "the main thing is that it succeeds 100 per cent.

Germany and that the "leadership principle," which dominates every phase of German life, will be applied also to culture.

One will, that of Dr. Goebbels, will determine the trend of Germany's cultural life.

Chancellor Hitler in a speech at the Nuernberg party convention in September pointed to the "necessity" of spiritual leadership of the nazis to complement their political leadership.

"Proceed from the recognition that in the future all created works can be preserved only by the same forces which were previously the bearers of creation," he said. "National socialism (nazi-ism) will bring to a dominating influence those parts of the German people which stimulated and fostered the formation of our people as a whole in the course of many centuries."

Our sugar was the crystallized portion of a barrel of sorghum, and salt was obtained by boiling the dirt dug from the floor of the smokehouse. Silver was scarce. So the government issued some fractional currency."

He opened his wallet and took out a collection of old bills.

"These were called shinplasters. This three-cent one was for postage. All the denominations up to 50 are there, with the exception of the 35-cent bill. There also was one for 75 cents. This currency was used up to 1873, when the government resumed specie payment."

Charges for Energy.

The industrial energy charges:
First 10,000 K. W. H. Per Month10 mills per kilowatt hour.

Next 25,000 K. W. H.—6 mills a kilofatt hour.

Next 66,000 K. W. H.—3 mills at K. W. H.

Commercial rates, announced in the Tupelo contract as available to commercial customers taking service from the municipality's secondary system. First 250 K. W. H.—2 cents per K. W. H.

Next 750 K. W. H.—2 cents per K. W. H.

All over 2,000 K. W. H.—8 mills per K. W. H.

On the industrial schedule, the announcement said, a cotton mill at Tupelo will save nearly 45 per cent, or more than \$1,500 monthly, on its power bill. Under the commercial schedule a user of 500 kilowatts of commercial power a month, it was claimed, will pay \$13.75, or \$220.25 less than the present Tupelo rate.

Switch to Shoals.

The municipality, which owns its distribution system, now buys current from the Mississippi Power Company, it will switch over to Muscle Shoals power on Febuary 7.

In making public details of the Authority's initial power contract, Lilienthal also outlined the terms and conditions under which municipalities may botain energy for retail distribution.

The rumors of this disagreement and resignation always were promptly denied. Only a few days ago, Woodin called newspapermen to his desk and asserted that he was supporting the president "to the limit." He added:

"I have grown hoarse denying rumors that I have resigned."

In his letter submitting his resignation the secretary addressed the president by the title which is now history but is nevertheless still used by his intimates, that of "Governor." The president replied with a "Dear Will."

He recalls personal contact with William Howard Taft, who was guest at a possum supper in Atlanta and escorted afterwards by Mr. McCord to Athens, where he was entertained in the Classic City by Miss Mildred Rutherford. "Teddy" Roosevelt he also knew and greatly admired. Calvin Coolidge was another president escorted during his stay in this city by Mr. McCord, who was governor of the Federal Reserve bank at the time. Mr. McCord served on the currency commission appointed by President Wilson, having been the author of a plan of currency reform, and held his position as first governor of the bank for 10 years. In reply, Mr. Roosevelt asserted that the "first consideration" was Woodin's "complete recuperation." He asked that the cabinet officer take a complete leave of absence, saying it was his hope and belief that in a few months Woodin once more would be "able to give the government the fine unselfish service which all of us in Washington so greatly appreciated." He added:

"We need you back again, the country needs you back again."

Penitentiary Distillery Urged for South Carolina

Urged for South Carolina CHARLESTON, S. C., Nov. -15.

(A)—The state penitentiary would supply South Carolina with legal whisky if Representative John H. Graham, of Charleston county, has his way.

Graham said he planned to introduce a bill at the 1934 legislative session to establish a state distillery at the prison.

"We could keep in South Carolina by this means thousands of dollars which otherwise would go out of the state," he said, "by having our people drink whisky manufactured in the pen distillery."

South Carolina's adult males will be entitled to a quart of whisky each month when national repeal becomes effective.

on procedure at least, if they would help to restore diplomatic relations.

Whether there would be any radical departure by the Russians from the precedents set in other negotiations remained undetermined.

Litvinoft has made no secret of his desire to put relations with the United States on a normal basis. Circles close to his delegation said today he would make any reasonable compromise to reach that end.

ALKAHEST CELEBRITY TICKETS NOW ON SALE

Many Atlantans are taking advantage, this week, of the sale of season tickets to the Alkahest Celebrity series. This sale is on all week at the Cable Piano Company, on North Broad street and, by purchasing season tickets now, it will be possible to enjoy the eight splendid concert and lecture programs to be given through the fell and winter season on Sunday afternoons.

The attractions are to be presented at the Capitol theater, under the sponsorship of the Atlanta Alkahest bureau, all of them on Sunday afternoons except one, a famous dance program, which will be given on a Thursday.

gram, which will be given on a Thursday.

The opening attraction will be a lecture, "The Future in America," by Dr. Will Durant, probably the most popular speaker on the American platform today and recently described as "the best-educated man in America." Dr. Durant is remembered by many Atlantans for several lectures he has given here in the past, including one on the changing conditions of morals, which started a local controversy which raged for days in the local newspapers.

He is the author of numerous books, including "The Story of Philosophy," and is a speaker of eloquence and wit.

wit.

Other attractions on the Celebrity series, all included in the season tickets now on sale at a price less than 50 cents for each attraction, are Marion Talley, world-famous soprano in a concert recital. Amelia Earhart, greatest living aviatrix; Ben Bernie and his orchestra; Dr. S. Parkes Cadman, radio prescher and newspaper and his orcaestra; Dr. S. Parkes Cad-man, radio preacher and newspaper columnist; Dr. Glenn Frank, presi-dent of the University of Wisconsin; Uday Shan-Kar, sensational Hindu dancer and his dancers and orchestra, and Maurice C. Hindus, outstanding authority of modern Russia.

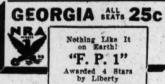

authority of modern Russia.

The sale of tickets good only for the Durant lecture will open Friday morning, while season tickets may be secured today and throughout the remainder of the week. Mail orders will be filled if sent to the Alkahest Bureau, Mortgage Guarantee building.

FERTILIZER MEETING IS BROUGHT TO CLOSE

The ninth annual session of the southern convention of the National Fertilizer Association ended Wednesday at the Biltmore hotel.

A code conference was held during the morning and during the afternoon a general industry session was held. President John J. Watson presided. Approximately 400 delegates attended the meeting, the largest the association has held in the last 10 years.

To Check Baby's Infectious Cold

Bad colds are a dangerous and trying time for both baby and mother, and thousands of mothers know that they may guide these colds to a safe and harmless conclusion by keeping the little bowels open and purified with Teethina, the revised formula of Dr. C. J. Moffett. Teethina moves the mucous from the bowels, relieves discomfort and acts as an intestinal antiseptic to keep baby's stomach pure and sweet, the first and most necessary step to cold-relief. This two-old action is why Teethina gives such excellent results in treating baby's colds. Get a 30c package from any drug store, give baby relief and rid yourself from worry and anxiety,—(adv.)

Oil Operator Challenges Testimony on \$300,000 Reported Paid.

WASHINGTON, Nov. 15.—(49)—A firm denial by Betram Cutler that the Rockefeller interests arranged a \$300,000 gift to W. S. Fitzpatrick, oil operator, today drew a sharp challenge before the senate banking committee from Fitspatrick himself.

Cutler, financial advisor to the Rockefellers for upward of 30 years, in a calm and unhurried voice, smiling at times, was questioned by the committee in efforts to learn why Fitzpatrick received the money from a pool in Consolidated Oil stock which netted participants \$12,000,000.

At the time of the operation of the pool in 1928-29, Fitzpatrick was president of the Prairie Oil and Gas Company, in which the Rockefellers had an interest and which was a rival to the Consolidated Company, with which it was merged in 1932.

Fitzpatrick, examined at length in the morning session, told committee members that in connection with the morning session, told committee members that in connection with the consolidated company.

Fitzpatrick, examined at length in the morning session, told committee members that in connection with the sale of Prairie stock owned by Rockefeller interests had told him he would be taken care of.

He explained he understood he was to receive about 10 per cent of the profits of the New York banking firm of Blair & Co.. which handled the stock sale, and that he was given \$149.000 in two payments, representing about 21-2 per cent of the profits.

Later, he added, he was given the \$300,000 from the Consolidated Oil pool profits, in which Blair & Co. had a fourth interest, in place of the balance of profits from the sale of the Rockefeller stock.

The payment, Fitzpatrick asserted,

The payment, Fitzpatrick asserted, was understood by him to be compensation "in view of the 20 years" he had been with the Rockefeller company and that it was discussed with Cutler, representing the Rockefeller interests.

Cutler was called to the stand after Elisha Walker, now of Kuhn, Lock & Co., but then president of Blair & Co., had detailed the operations of the Consolidated pool. Harry F. Sinclair, head of Consolidated, was one of the participants.

the denominational work in Georgia crowded Mount Olive Baptist church here to hear the program centered around the opening of the 63d annual general missionary Baptist convention of Georgia, headed by Dr. James M. Nabrit, of Atlanta.

The principal sermon was delivered Tuesday morning by Dr. Charles D. Hubert, dean of Morehouse College in Atlanta. Dr. Hubert spoke on Paul's "Secret of Success." He illustrated the point that greatness grows from trials rather than triumph. The keynote acdress was delivered by the president, Dr. Nabrit, which was moved by Rev. W. W. Witherspool, of Bainbridge, to be the sentiment of the entire delegation. The motion was seconded by Rev. Pickett, of Atlanta, and passed.

and passed.

The convention went on record guided by the president as giving a rising vote of appreciation to James T. Porter, Macon manufacturer and other white citizens who have aided other white citizens who have alded the negroes in many ways, and espe-cially Central City College, owned, operated and controlled by the Bap-tists of Georgia. Rev. T. J. Thomas, Bainbridge, eulogized 41 members of the conven-tion who have died since the last meet.

meet.

A sermon by Rev. O. E. S. Cleveland, Savannah, and a welcome program by local talent, presided over by the pastor, Rev. J. H. Evans, closed the convention program for Tuesday.

The second day's session opened at 10 o'clock Wednesday morning at Mount Olive, and was known as educational day. Following the business session the missionary sermon was preached by Rev. F. J. Scott, Quitman.

session the missionary sermon was preached by Rev. F. J. Scott, Quitman.

At the 5 o'clock session Dr. J. H. Gadson, president of Central City College, made his annual address, which outlined the progressive and aggressive program that has been set up for the building of a greater college with much of the financing made possible by Mr. Porter, and liberal contributions from friends in the state of both races. A great musical festival was sponsored by the Baptist ministers of Macon, the proceeds of which went to the college.

The doctrinal sermon, by Rev. G. W. Jordan, Atlanta, neceived the applause of the delegation that represented 500.000 Baptists of Georgia and ended Wednesday's session.

Thursday the election officers, reports and the farewell sermon by Rev. W. G. Bivins, of Atlanta, will be the highlight features. The Woman's Missionary department of the convention are holding inspirational meetings at Tremont Temple Baptist church, with about 150 in attendance.

White is chairman of the memorial committee. The exercises will include tritutes by Dr. W. F. Melton, Dr. Thornwell Jacobs, Dr. T. H. English, Professor Van Woodward and Glenn Rainey.

Macon City Finances Out of Red, Says Toole, Leaving Mayoralty

MACON, Ga., Nov. 15.—(A)— city had been reduced \$261,000 during Herbert Smart assumed the office of mayor of Macon today, succeeding G. Glen Toole, who ended his term yesterday with the declaration that the city's finances had shown an improvement of \$144,790 in current assets over liabilities during the past four years and the floating indebtedness cut \$117,740 despite the shrinkage in revenues. Outstanding bonds on November 1, 1933, totalled \$858,000 and floating indebtedness on years.

"I think today the failure of the banks throughout this country to allow reasonable amount of credit is doing more to retard the recovery from this depression than any one factor," he said.

He said he would liked to have seen the city own its light and power dis-tribution system during his adminis-tration. He said he had been advised the Tennessee valley improvement tration. He said he had been advised the Tennessee valley improvement project soon would be in position to offer power from Muscle Shoals at low rates. "By constructing a distribution system this power will be available to the people of Macon. If this is not possible I hope there will be some reduction made in light and power rates by the public service commission in the near future. I also think we are entitled to a reasonable reduction in telephone rates, freight rates and gas rates."

Mr. Toole commended Governor Talmadge for his efforts to reduce utility rates. The mansion was the only home owned by General Oglethorpe in this owned by General Oglethorpe in this country.

Baptists Postpone Decision

Change in Educational 1846 Penny Convicts System Deferred for Year After Two Days of Heated Debate.

BY BEN F. MYER. AUGUSTA, Ga., Nov. 15,-(P)-

The Georgia Baptist convention decided late today there would be no change in its educational system for at least one year.

This action came after heated de-

This action came after heated debate on the floor of the convention for the major portion of the first two days of the annual meeting following recommendations of a special committee of seven that the convention centralize educational activities at Mercer University, Macon.

The special committee was headed by Dr. J. E. Sammons, of Macon, president of the convention.

Outstanding leaders of the denomination in the state spoke on opposite sides of the question. Included in the committee recommendations was the discontinuance of two denominational institutions of higher learning and changing the status of two others.

When the convention appeared deadlocked on the question of future educational work, Dr. Ellis Fuller, pastor of the First Baptist church of Atlanta, proposed that the committee's recommendations be accepted as a progress report and that the committee's recommendations be accepted as a progress report and that the committee continue its investigations during the next year and print findings in the Christian Index, Baptist publication, 30 days before the 1934 convention.

Dr. Fuller's resolution asked the

RALPH M'GILL SPEAKS

TO MACON ROTARIANS

MACON, Ga., Nov. 15.—A picture of the Machado government in Cuba during its regime of atrocities and graft was presented to members of the Rotary Club today by Ralph McGill, sports editor of the Atlanta Constitution.

Mr. McGill recited incident he observed during a visit to the island and related stories he had been told by persons who went through harfowing experiences. He reviewed the history of Cuba from its early settlement by the Spaniards and showed by the sword.

The speaker told of seeing the stripes on the backs of students as a result of floggings they had received. The respect for Ambassador Welles was high in Havana though by the sword.

The respect for Ambassador Welles was high in Havana though of late he has lost some of the esteriem in which he was held, he said. Wallace Miller and John H. Anderson were welcomed as new members by J. T. McGehee. They were taken from their home to Custon and the proposed of the attendance prize last week for being absent only once in a year, was present though he had spent the

when he was questioned from the floor if that meant co-education, Dr. Fuller replied the resolution was adopted.

The convention then began consideration of the 1835 budget.

The convention adopted a \$500,000 budget for the coming year and then engaged in a heated discussion as to the advisability of Mercer University belowing mublic works funds for immediate and southern Baptist causes. The amount of the budget adopted came somewhat as a surprise since the executive committee recommended only \$230,000 for state and southern Baptist causes. The amount above the committee's recommendation is to be divided equally between state and southern activities. A substitute and southern activities are actived as a suprise since the execution committee with authority to negotiate for about \$150,000 of public decreases and a substitute and southern activities. McDowell said he understood there would be no grant and added: "We would have convinced the government they are self liquidating."

After the debate the question finally was referred to a committee to name five persons to make a recommendation to the convention tomorrow.

McDowell said Chairman Thomas J. Hamilton, of the Georgia public works advisory board, promised to consider Mercer's application for a loan. He said he wanted to convert Sherwood hall for men into a modern dormitory for women, build a heating system and other improvements.

A suggestion was made from the floor that Bessie Tift College at Forsyth and other schools be included for consideration in the public works

L. Wright, of Abbeville, fatally injured in an automobile accident en route here, were held tonight at the opening session of the annual South Georgia conference of the Methodist Episcopal Church, South.

Bishop John W. Moore, presiding at the conference in order to provide additional time for the memorial service.

The Abbeville pastor and two other ministers, the Rev. O. W. Jordan, of Rochelle, and the Rev. E. R. Lewis, of Oakfield, were making the trip here in a car. As they crossed a highway on the road to Brunswick, they collided with a machine driven by Miss Lottie Ginn, of Screven. Mr. Wright, on a rear seat, suffered a skull fracture. The other ministers were in jured.

In his message Bishon Moore said.

In his message Bishop Moore said he had learned the people in Georgia were in better financial condition than they had been in several years and that it was remarkable how church attendance had held up during depressing times.

He said that the present day youth was growing tired of roughness of modern social life and were turning to the finer things. He urged parents not to "abuse youth."

The Rev. Thomas H. Thompson, of Moultrie, was elected secretary of the conference in the absence of the regular secretary, the Rev. W. F. Smith, of Perry, who is ill and unable to attend.

One of the important matters to come before the conference is the assignments of pastors for the new

Mrs. Glass To Give Spend-the-Day Party To Grant Park Club

Mrs. Stiles Glass will entertain nembers of Grant Park Woman's Club at a spend-the-day party on Friday, November 17, at 296 Cherokee place. The meeting of the club will be held at 10:45 o'clock with the president, Mrs. Ed Almand, presiding.

Mrs. C. W. Heery, program chair-

man, has arranged an interesting program to be presented immediately fol-lowing the luncheon. Mrs. Almand stresses the importance of a full at-tendance, as plans are to be made for "Thanksgiving Baskets."

Other officers of the club include Mesdames P. A. Smith, W. R. Allgood, F. A. Brady, Stiles Glass, A. J. Stall-ings, Carl Carston and R. B. Lawless.

Mr. and Mrs. Howell Honor Bridal Couple

Miss Harriett Wynne and her fiance, James Gadsden Wilcox, were honor guests at the beautifully appointed party at which Mr. and Mrs. Julian Howell entertained last evening at their home on Northside drive. Red and white roses were effectively arranged to center the dining table, where the bridal motif was reflected in the place cards. Covers were placed for Miss Wynne, Mr. Wilcox, Miss Jaqulin Moore, Mr. and Mrs. Leroy Frederick Wynne, Mr. and Mrs. William Beauchamp, Arthur Tufts and the hosts. Miss Harriett Wynne and her

History Study Club held its November meeting on Tuesday at the home of Mrs. P. M. Christian on Clifton road, and the president, Mrs. J. M. Spencer was in the chair. Mra. Walter Pope presented an interesting paper on "The Struggle With the Church, and the Dissolution of the Old Empire." The speaker was Fraulein Ursula Boese, of Berlin, Germany. Fraulein Boese spent the past two years in America and is an exchange student at Agnes Scott College. She gave a vivid account of conditions in present-day Germany, bringing out the significance of the national-socialist movement of the Hitler regime. She also discussed the educational system of her country, contrasting the University of Germany with the American college.

Mrs. Christian was assisted in entertaining by her mother, Mrs. H. C. Howard, and her sister, Miss Marian Howard. The guests were Fraulein Boese, Mrs. D. R. When Your Cough Hangs On, Mix

This at Home

Saves Good Money! No Cooking!

If you want the best cough remedy that money can buy, mix it at home. It costs very little, yet it's the most reliable, quick-acting medicine you ever used. The way it takes hold of stubborn coughs, giving immediate relief, is astonishing.

Any druggist can supply you with 2½ ounces of Pinex. Pour this into a pint bottle, and add granulated sugar syrup to make a full pint. To make syrup, use 2 cups of sugar and one cup of water, and sit a few moments until dissolved. No cooking needed. It's no trouble at all, and gives you four times as much cough medicine for your money—a real family supply. Keeps perfectly and tastes fine.

It is surprising how quickly this loosens the series had replayed. Weet in all probability held and solved and ruff with North's six of spades. East played the nine and south's king won. FRIENDLY COUNSEL

Problems of general interest submitted by readers will be discussed in this column Correspondence invited Your name held in confidence Write Miss Chatfield, care The Atlanta Constitution.

Dear Miss Chatfield: When my | children were young my mother-inlaw was very good and kind to me, helping me with the care of the little ones in one way or another. We never went anywhere without taking her went anywhere without taking her along and she was always an agreeable companion. She is getting old and childish and, having devoted 15 years to her. I begin to feel that it is my privilege to, go and leave her at home occasionally. She resents it bitterly and charges me with neglecting her, now that the children are out of the way. My husband agrees with me that I shouldn't feel the necessity of taking her with me every time I get the car out of the garage. She doesn't live in the house with us but nearby, where she can run in and out all hours of the day. If she comes in and finds that I have left her she is indignant and complains to my son that I have sight.

that I have left her she is indignant and complains to my son that I have discarded her in her old age. This is a perplexing problem to me, as I want to do the right thing by her and at the same time have a little liberty DAUGHTER-IN-LAW. Answer: We all expect of the aged a wisdom and kindness and self control commensurate with their years. We have to get old ourselves to know a truth that is irrefutable, however unacceptable it may be; whatever characteristics a person may have in youth,

it may be; whatever characteristics a person may have in youth, those characteristics become accentuated in age. Particularly is this true of traits such as sonsitiveness and censoriousness. Tender feelings become more tender with the consciousness that youth is gone and with it many of the things that make one an attractive and agreeable companion. Eyes dimming, ears dulling, muscles stiff, "The grasshopper a burden," the old person born sensitive becomes more so with every passing year.

As for the critical and censrious stitude unconquered in youth and yielded to in maturity, the habit of criticism has become firm'y fixed in old age. There is not men-

tal or physical strength to break a habit of a lifetime, even if it were recognized. The old person sinks into the rut which she has worn. She cannot pull herself out nor be helped out by her children.

So you see, the period of growth and development, of change and adjustment is past. The arteries of mind and body are hardened and set. Any hope for reform is futile. If the old person had clear insight into the havoe she worked with her own and her children's happiness she wouldn't be able to aiter her attitude and seldom, if ever, does she have that insight.

with these facts borne in mind a daughter-in-law should be able to work out a practical and satisfactory solution of her problem. The mother-in-law is satisfied with nothing less than being included in every excursion, in being made an integral part of the social life of her son's family; and this satisfaction denied her she is going to snarl at the daughter-in-law whom she holds responsible for her disappointment. She is going to register her disappointment and her disapproval with her son to whom she feels she has the right to complain.

The daughter-in-law should certain-

the right to complain.

The daughter-in-law should certainly have the privilege of some social life apart from the old lady. Yet she should remember that some day she, herself, will be old and in a large measure dependent upon the good graces of her own children. She should be always kind and respectful and generous in her attitude toward the old lady. She should ignore the criticisms, be lenient in her judgments of her and go on with her own family life, including the mother-in-law as often as is consistent with her own ideas of what is due her husband's mother and her children's grandmother. She should be thankful, too that her husband is in full sympathy with her. Under these circumstances many a man is less just and fatr to his wife.

There Is But One Lemonade In Each Lemon

John Reed Kilpatrick, who heads Madison Square Garden, was one of the great Yale ends. Yale had three of them. When one has mentioned Frank Hinkey, Tom Shevlin and John Kilpatrick he doesn't say any more about eastern end

He has said all there is to be said. He has named the

They say of Frank Hinkey, who played in the days of the flying wedge, that his end was not turned in four years. And that the grim-faced little man (he weighed but 155 in those days) played so fiercely that several teams wanted to cancel Yale games because Hinkey was too rough.

And once they were praising Hinkey and asked him about Kilpatrick and he said, "Well, you say I was pretty good. Kilpatrick could do everything I did AND HE WAS 40 POUNDS HEAVIER."

And Tom Shevlin was as good as the others. They were what Pudge Hefflefinger was to line play. He was all there was. There is a plaque there which tells how Pudge, weighing 290 pounds and fast as a deer, invented leading interference and how once he took his halfback under his arm and sped down the field like a deer. But that is line play. This story was about ends.

And lemonade. Kilpatrick tells of a team, which was many a year ago, that Hinkey was coaching. It was a good Yale team but it had lost several close games and had lost

And so Shevlin and Kilpatrick went back to help Hinkey. They gave the team new plays, although their old ones were good enough. They were seeking to aid with psychology. They gave the team new uniforms. And they went to work.

And when the Princeton game came, Yale, to the horror and amazement of all the football world, especially Princeton, swept the Tiger away and won by a

Came the Harvard game and Yale was sent out there. But Yale was flat. They had left all their football on the field at

And the story goes that Hinkey was at one end of the bench and Shevlin at the other. And that as the game progressed Shevlin became moodier and moodier. And that finally he arose and walked to Hinkey's end of the bench and said, in a great epigram:

"Frank, you can get just one lemonade out of one lemon. And went back to his seat.

GREAT FOOTBALL STORIES.

The players of the old days are great sources of stories. The football reporters did not follow them around. And their big games attracted relatively small crowds. And their stories

But there were giants on the earth in those days. Because on Saturday, November 11, Pudge Hefflefinger, the great Yale guard of the old, old days, played 40 minutes of football with his town team. And Pudge Hefflefinger is 66 years old. No gains were made

over him. And he wasn't hurt.

Sometimes the Great Giver puts all that weight, 280 pounds of muscle and brawn, into a frame that has speed, courage and intelligence. Usually there is something missing in the giants, some spark in the brain, some fire in the reservoirs of courage, some speed in the legs and arms. But Hefflefinger had it all.

Atlanta's only prep football game of the week will be played at 3 o'clock this afternoon on the Marist campus when the Marist varsity plays an alumni eleven. The game will be free to the public, and will likely be one of the last opportunities to see the North Georgia Interscholastic conference champions in action here this seasome speed in the legs and arms. But Hefflefinger had it all. A giant that could be a Thor or a Winged Mercury.

John Reed Kilpatrick played against Vanderbilt in 1910. And he recalls that Bill Neely, who came north with Vanderbilt, was as good an end as he ever saw.

And all of them say that Chuck Bernard, of the Michigan team of this year, is one of those super-players who come along only now and then.

AND SOME AREN'T GIANTS.

And this discussion of the giants of old recalls that on Thanksgiving Day there will be a game at Grant field. And that there are not always strong legs and strong boys

This game is to be played between the Tech freshmen and the Georgia freshmen. And it will be played with the gross proceeds going to the Scottish Rite Hospital for Crippled Children.
The teams are giving their services, as a matter of course.

Auburn Has Nine of Eleven Players Who Beat Georgia.

By Al Smith. ATHENS, Ga., Nov. 15.—Harry Mehre, who a lot of folks figure should be sitting on top of the world, is do-ing a lot of high-class worrying these

Although Georgia has already been conceded the Auburn game Saturday. Coach Mehre has a habit of never declaring a game in the bag until he sees the final figures on the scoreboard. He's funny that way. So the predictions of a Georgia victory over Auburn have left him cold. In fact, he shivers every time he thinks about Saturday's game.

Anburn have left him cold. In fact, he shivers every time he thinks about Saturday's game.

Few have stopped to figure it out, but the Auburn team which plays Georgia Saturday has nine of the eleven men who really beat Georgia last fall. And Georgia's lineup is practically the same. Auburn has a good, fast, aggressive ball club. That in itself is cause for apprehension.

The injuries are the second big worrs. Buck Chapman, the regular fullback, hasn't been in form this week, and he may be unable to start. Marion Gaston, his understudy, has hung up his football togs for good. A steel brace must remain around Gaston's knee for four weeks. All that leaves the fullback situation squarely up to Joe Crouch. If Crouch comes through as he is capable of doing all should be well.

John McKnight is definitely out as a center for Saturday, very likely for the remainder of the season. Yank Ludwig, who has a knee injury, is being used as defensive guard, with Dave McCullough and John Brown acting as defensive centers. Tom Perkerson is the only able-bodied center.

The line plunging of Joe Crouch featured today's long offensive scrimmage. Crouch, running with the first team, did a great job of ball carrying. The Bulldogs were in fine fettle offensively, two teams going good against a freshman team which offered little opposition.

There was a bit of trouble with the defensive assiguments as Jeff Hollis and his Red Devils did some steady

GALVESTON, Texas, Nov. 15.—
(P)—Announcement was made today that Guy Sturdy, Little Rock manager and first baseman last year, had been traded to Baltimore for Guy Cantrell, right-handed pitcher former-

today and the public is cordially invited to witness the game.

Marist has shown the most improvement of any prep team in the state in the past few years, under the coaching of Louie Van Houten, a former midget Marist back.

Last year the team won only two games and, with few players as a neucleus, Van Houten has developed a championship aggregation. Marist, except for a game with Boys' High, is undefeated and only Boys' High and Gainesville has scored on the Lyy street Cadets this year.

Marist tarted the season with one of the major prep upsets in holding

ciation of Professional Baseball Leagues. His successor as manager has not been selected definitely. He will be a playing manager, Winder said. Sturdy was named manager during the past season, succeeding Harry Strohm.

CHICAGO, Nov. 15.—(P)—Tommy Armour has been signed to a new three-year contract as golf professional at the Medinah Country Club Chicago.

The "Silver Scot" came to the club last year and was given a long contract in recognition of his popularity after one of the club's most successful seasons, officials said.

Coach Thomas stated today that he was still undecided as to whom he would start at the fullback post. It lies between Smith, Demyanovich and Hughes. Thomas will probably not make his choice until game time.

Charlie Stapp, fleet halfback who starred against V. P. I., will likely play at least part of the game.

PHILADELPHIA, Nov. 15.—(UP)
Trade winds today blew Jimmie Wilson, veteran catcher of the St. Louis Cardinals, back into his old Phillies uniform, and shifted Virgil Dayis, first-string catcher, and Eddie Delker, utility infielder, from the Phillies back to the Cards, with whom they played previously.

In announcing the deal, Gerald P. Nugent, president of the Phillies, said that the Cards also had given Philadelphia some cash.

Wilson, rated one of the best catchers in the majors, played with the Phillies for five seasons before being traded to the Cards in May, 1928.

Aloofness between Wilson and the Cards' new manager, Frankie Frisch, is believed the chief reason for Jimmie's change of uniforms. The 33-year-old Wilson batted 256 in 113 games this year, eight points better than his 1932 mark.

"Spud" Davis is 28, He was with the Cards part of the 1928 season, and was sent to the Phills in the trade that involved Wilson. He developed into a slugger at Philadelphia and this year ranked second to his teammate, Chuck Klein, among the league's leading batsman. He batted for 349 in 141 games, his highest average in the majors.

Infielder Delker was traded by the Cards' to the Phillies in 1932, his first season in the majors. He was at bat only 41 times this season, and hit for the low average of .171. He is 26.

A REAL BATTLE.

The Georgia-Georgia Tech engagements are those traditional types where previous performances count for nothing. The underdog wins as often as the favorite. Tech support-ers take heart as they remember the stunning defeat of Georgia's 1927 "wonder team" by a fighting band of Engineers. Engineers.

The curtain falls on December 2 as Duke, probably the winner over North Carolina and North Carolina State, runs into Georgia Tech here. Duke may have its very definite Rose Bowl visions shattered by the rough and ready Engineers. Tech certainly is one of the strongest rivals Duke encounters and, if Bill Alexander's cohorts are not too severely battered by the Crimsons and the Bulldogs, the Tornado may be capable of blowing very, very hard against Wallace Wade's Blue Devils.

Green Wave Tests Its Offensive

NEW ORLEANS, Nov. 15.—(R)—
The Tulane Green Wave tested its forces this afternoon in a lengthy scrimmage session against freshmen forces in preparation for the scheduled game here Saturday against the University of Kentucky Wildcats.

The squad was put thruogh a thorough workout by Coach Ted Cox, the emphasis today being on certain plays that will be used in Tulane stadium Saturday. Tomorrow the Greenies will be given a less vigorous drill, with more rehearsal of offensive plays.

Hard scrimmage was avoided, but the freshmen were given Ole Miss plays in the huddle and told to run them against the varsity. Afterwards the coaches told the first-stringers how their defense against the attack could be improved.

Although Louisiana will be the heaviest team Saturday, Mississippi's probable running attack is causing the Tigers concern.

Ross Is Favored

CHICAGO, Nov. 15.—(R)—Barney Ross' friends don't like the way he's showing up in his workouts, but he still ranks as a 3-to-1 favorite to retain his junior welterweight title against Sammy Fuller, of Boston, in a 10-round battle at the Chicago stadium Friday night.

Ross, seemingly a bit ted up on training, didn't look as impressive as Fuller did in vesterday's workouts and cut his drills from six to four rounds dail.

This is, in a measure, substantiated by Mr. W. O. McGeehan, the

BRUNSWICK, Ga., Nov. 12.—Mr. Catfish Smith long since has been graduated from the University of Georgia and is engaged in plowing his own cotton under to collect the government bonus or getting a loan on such cotton as he forgot to plow under, but his malignant piscatorial influence still seems to hang over the Yale-Georgia game. At New Haven, following the fourth cementing of the eternal friendship of Yale and Georgia, they once more are singing "The Catfish Blues."

"What happened at the Yale Bowl over the week-end was particularly distressing to Mr. Reg. Root, the young coach of the Yale team. For one thing, it wasmonotonous. Mr. Root was a witness to the first Yale-Georgia game at Athens. He had flown up from the other side of the Rio Grande to see it, after finishing his seaon as coach of the University of Mexico. He arrived at Athens just in time to see a promising Yale team plowed under by Georgia as though it was in the grip of the boil weevil.

"The bark of the Bulldog was drowned out by the strident laughter of the Georgia Catfish. It was not a happy home-coming for Mr. Root. They did not even barbecue a razorback. If that was southern hospitality, reflected Mr. Root, he could do without any hospitality whatsoever. And, still, every time Mr. Root comes to town the Crackers are kicking the Bulldog around.

Sington and Susko Traded; Pitcher, Outfielder Are Bought.

By Jimmy Jones.

By Jimmy Jones.

GALVESTON, Texas, Nov. 15.—
Officials of the Atlanta Crackers today boldy invaded the player market at the national convention and
came up with three players which
will completely rebuild the 1934 infield and a capable left-handed addition to the pitching staff.

The biggest deal of the day was
put over when Spencer Abbott and
President Wilbert Robinson traded
Pete Susko, first baseman, and Fred
Sington, young outfielder, along with
\$10,000 cash to the Albany club of
the International league for Harry
Taylor, star first baseman of that
club who batted a .329 figure last
year, and Fritz Knothe, third baseman.

JAMES FROM GIANTS.

Earlier in the day Abbott closed a deal with Bill Terry, manager of the world champion New York Giants, for the purchase of Byrne James, 25-year-old second baseman, who participated in 58 games with the champions last year, and bought Art Jacobs, 27-year-old southpaw pitcher, who won 17 games in the Coast league last year, from the Portland club. The latter two were outright buys.

club. The latter two were outright buys.

Manager Abbott, who had Jacobs three years at Portland, says the southpaw is a screw ball pitcher with lots of stuff and virtually pitched his 1932 Portland club to the Coast league pennant with some timely wins.

league pennant with some timely wins.

The Cracker deals were easily the day's standouts in the bartering here and attracted considerable attention. In landing Taylor, James and Knothe. Abbott believes that the Crackers will have one of the fastest infields in the Southern league. He is thoroughly familiar with all three players and figures that with Buster Chatham, who will be retained to play short, they will form a very capable quartet.

TAYLOR EX-CUB. TAYLOR EX-CUB.

Taylor, a fast man, left-handed hitter and thrower, was purchased by the Chicago Cubs from Seattle year before last for \$20,000. Abbott knew him in the Coast league and says he is the "goods." His fine record with Albany last year bears that out.

Fritz Knothe, also a former Seattle player, had a good season with the Boston Braves in 1923, and is considered just a little short of the major league grade now. He is a brother to George Knothe, New Orleans shortstop.

brother to George Knothe, New Orleans shortstop.
Wilfred E. (Fritz) Knothe played 89 games at third for the Braves in 1932. He batted only 240, but his fielding was considered excellent. His record in the Coast league previously was much better. Knothe dropped out of the National last summer in a three-way deal through which Jimmy McLeod, shortstop, was sent to the Phillies.

McLeod, shortstop, was sent to the Phillies.

ROLLINGS TO GO.

The purchase of Knothe means that the Crackers will dispose of Red Rollings, last year's third baseman, in a trade or outright.

The Atlanta club has bought only finished players thus far and will not need many rookies, in view of the crop which came up from Charlotte. International league managers at the meeting here tonight declared that Harry Taylor was the outstanding first baseman in that circuit this year.

rist baseman in that circuit this year.

"He's a good player and an especially brilliant fielder," declared Mike Kelly, Jersey City manager. Ike Boone, who played with Toronto, paid him a similar compliment. The Crackers have not had a consistent first baseman since Dick Burrus left, PINEHURST, N. C., Nov. 15.—

few of the members of the Tech second team of last year who had a hand in Alabama's 6-to-0 defeat played with a team of reserves against the varsity last evening under the floodights and scored three touchdowns to the varsity's one in a long scrimmage at Grant field.

It was a semi-varsity, but included regulars for the most part. A tendency to fumble and fail to apply blocks made for an elegant showing on the part of the reserves.

The reserves ran Alabama plays successfully and then went on the defense. Oh, it was very cold on Grant field. But it was no colder than the hearts of the Georgia Tech reserves. Scrimmage started from the kickoff and very, very soon after Galloway had punted Johnny Ferguson
stood back on his 30-yard line and
punted an end-over-end punt that
rolled all the way across the goal. It
was a 70-yard kick.

McKINLEY SCORES. The reserves recovered a fumble and President McKinley ran to the weak end and crossed the varsity's goal line. Not long afterwards Pug Boyd ran around right end, picked up his interference and scored on a 20-yard jaunt. A little later Ferguson passed to Barbre, end, for a third touchdown.

to Barbre, end, for a third touchdown.

It took the semi-varsity a long, long time to score after taking the ball. It was a slow march up the field marked by fumbles and incoherent blocking. Billy Street and Sundial Martin, Tech's "man in the iron mask," did most of the gaining. Occasionally, Norris Dean and Charles Galloway contributed a few yards.

Dean failed at the goal line to buck over and Galloway handled the ball for Street, who crashed over for the varsity's only touchdown. It was practically 6 o'clock. Tech had been at work since early in the afternoon. Had a score not been forthcoming, the Jackets would have stuck to their scrimmage far, far into the night.

"The descriptive adjective of today's scrimmage is 'lousy,' "Coach W. A. Alexander said after he had dismissed the squad. "I haven't anything to say."

Georgia Flankman Dixie's Best Bet For His Post on All-American Eleven.

ATHENS, Ga., Nov. 15.—Captain Graham Batchelor, Georgia's great right end, looms as one of the south's best bets for all-American recognition, along with his teammates, Cy Grant and Leroy Moorehead. Overlooked in the early season shuffle because of a knee injury which kept him out of the North Carolina game and limited his play

in the Tulane game, Batchelor has come back since the Mercer game to make a strong bid for all-star honors at end. Yet the modest, retiring Georgia captain has probably thought less about all-American honors for himself than many another football player.

In addition to being one of the nation's best ends-and Coach Harry Mehre, among many others, thinks that Batchelor hardly has a superior in the nation as an end-Batchelor is one of the best captains Georgia ever had. He has been a rallying force for his team whenever things began to look dark for the undefeat-ed Bulldogs. It was Batchelor's presence at end—and later at cen-ter—that went a long ways toward helping Georgia hold its slender 13-12 lead over Mercer.

A TEAM PLAYER.

Captain Batchelor is a team player. He does the thing that's best for the team. Early in the season. Georgia was in a bad way for centers, with John McKnight injured and Tom Perkiuson not then developed into the fine player he now is. So Coach Mehre told Batchelor, a center his sophomore year, that he might have to shift him to center. Batchelor, knowing that his chances for all-star recognition were only faint if he had to accustom himself to center again, readily assented. He was more interested in Georgia's success than in his own personal fortunes. Captain Batchelor is a team play-

tunes.

Batchelor is one of the greatest athletes Georgia ever had. Aside from his football ability, he is probably the outstanding track man in the Southeastern conference. He has been known for the past two years as Georgia's "one-man" track team because of his ability to win four first places in every meet in which Georgia participates. Captain Batchelor is an outstanding star in the shot put, discus and javelin. He also wins first places for Georgia in the broad jump.

Perhaps his true greatness as an athlete cannot be realized unless one downstant things he's done since coming to Georgia. A full-back in prep school, Captain Batchelor was shifted to center during the spring of his freshman year. He did so well that be was a regular on the great 1931 Georgia team. Yet the following year the graduation of Cattish Smith and Weddington Kelley left gaping vacancies at the flanks. So Batchelor became an end a star end, too, all in one year. I always hesitate at writing of things like this. We do not care so much for what has come to be known as "sob stuff." And I have heard people say, "Oh,

Buildings Will Answer Long-Felt Need on Each Campus.

By Ralph McGill.

Georgia Tech and Georgia are going forward with plans for new symnasiums, modern and complete, it was learned yesterday from an authoritative source.

Bull Shaw, a mighty fine guard on the Oglethorpe football team, is not expected to be in shape to play in the Citadel game this Saturday at Augusta, and Adams is being groomed for his position, Coach Harry Robertson announced last night.

"Shaw is a fighter," Robertson said, "and we will miss him. I don't see a chance of his playing."

Otherwise Oglethorpe is in good shape, Jack Harrison, a fine halfback, is about ready to return to the football wars after an absence that dates back to the first game of the season.

They are awaiting the results of the board of regents' request for the government funds which will be allotted for buildings which are self-liquidating over a period of 30 years. It is believed the loans are assured.

Georgia plans a combined armory and symnasium. Tech plans a symnasium and swimming pool. Both gyms will feature large basketball courts.

Neither Tech nor Georgia has an adequate gymnasium. Tech, as a matter of fact, has none at all. The gymnasium burned down last year. Georgia's gym activities are housed in a large frame building.

They are probably the only two major southern institutions lacking in adequate gymnasium equipment.

Everything depends, of course, upon the successful completion of the financial deals which the board of regents are negotiating for at present. They include loans for other buildings, not only at Tech and Georgia, but at other members of the state educational system.

Oglethorpe was playing Newberry at Ponce de Leon park. After they got Harrison out of the trenches that they call sideline markers at Ponce de Leon, it was discovered he had a broken ankle.

Harrison will not start the game, but Coach Robertson plans to use him.

Belton Clark's kicking is expected to play an important part against Citadel. Clark outkicked Casey Kimbrell. Auburn's splendid kicker, in the first half at Auburn.

Traders showed a strong preference for the sidelines. Strength of foreign bonds plainly signaled the trend of the times and of capital. It was again indicated at the capital that no change in monetary policy was contemplated.

United States Steel, Westinghouse, General Motors (ex-dividend), du Pont, General Electric and Union Carbide yielded fractions. National Distillers, United States Smelting and American Can were moderate gainers. Sales totaled 1,353,460 shares.

LIVINGSTON & CO.—The Washington news is being watched to the exclusion of all else and it is rather more than possible that the appointment of Henry Morganthau as secretary of the treasury will be considered as anticipating some further move toward inflation.

Bonds and Stocks

1012 Citizens & Southern National Bank Bldg. Atlanta, Ga.

By BERNARD S. O'HARA. NEW YORK, Nov. 15.-(A)on the curb exchange today. Quotations were fairly stendy at the offset but a desultory drift toward lower levels followed. Trends shifted constantly and a slight stiffening of prices came at the finish. Utilities and specialties closed mod-erately lower. Alcohols showed a fairly steady trend, while oils and some of the metals advanced mod-estly.

A number of inactive issues among utilities and others suffered losses of 2 or more points and included General Tire & Rubber and National Bond & Share.

Recessions of fractions to a point

Recessions of fractions to a point or so were registered by Electric Bond & Share and Aluminum Company of America. Hiram Walker ruled about unchanged. Small advances were marked up by Gulf Oil, Newmont and Swift International.

Transfers declined to approximately 205,000 shares, compared with 284,000 for Tuesday.

Market Outlook

MAX BUCKINGHAM

NEW YORK, Nov. 15.—(UP)— Market traders attempted tonight to pierce the befogged situation surroundpierce the betogged situation surround-ing stock and commodity markets. Business reports are neglected. Or-dinary market barometers are failing as most financial operators watch gy-rations of foreign exchange in an at-tempt to get some solution of the present monetary condition. Today's stock and commodity markets twiffing present monetary condition. Today's stock and commodity markets typified the condition. The dollar dropped to new low levels. This ordinarily would call for rising markets on inflation. But the share market closed with losses ranging to 2 points—only oils escaping—while most commodities were lower with wheat off as much as 2 cents a bushel.

There is little hope of any stability coming into the market until traders regain confidence in the market.

HOPE ELIMINATED.

Wall Street had counted rather

HOPE ELIMINATED.

Wall Street had counted rather considerably upon the promised statement by Secreetary of Treasury Woodin on the gold situation. The sudden switch in the treasury department today—Woodin's leave of absence, Dean Acheson's retirement and assumption of the acting secretaryship by Henry Morgenthau Jr.—eliminated this hope. There was one belief in Wall Street that the change might aid inflation, inasmuch as Acheson and Woodin are "sound" money men, whereas Morgenthau has shown tendencies away fr m this view.

whereas Morgeenthau has shown tendencies away fr m this view.

Failure of commodities and stocks to pick up in view of the cheap dollar—dropping below 60 cents in relation to the franc—today was the chief deterrant to optimism. Other unfavorable factors before the market tomorrow included:

Continued weakness in utilities, Consolidated Gas dropping to a new 1933 low today. This feeling was furthered after the market closed today when Electric Bond & Share Company eliminated the annual dividend, which last year was a stock dividend.

Following an advance of 5 to 9

Following an advance of 5 to 9 Following an advance of 5 to 9 points prices receded under increased offerings and scattered selling encouraged by the early rally in the dollar. May, which had advanced to 10.48 at the opening, sold off to 10.33 with active months showing net losses of 4 to 8 points. Closing quotations showed rallies of 7 to 10 points from the lowest.

Business was comparatively said.

Business was comparatively quiet. Exports today, 26,376, making 2,867,824 so far this season. Port receipts, 33,245. United States port stocks, 4,000,516.

Comparatively little southern selling was reported here during the day, and there were continued reports of a very firm basis in the south. Reports from the southwest said that the peak of the movement has appeared to have passed and that offerings are small with farmers expecting higher prices and inclined to hold their cotton.

ton.

Liverpool cables said the market there was steady with scattered hedging and continental selling absorbed by the demand from Bombay and the trade. Houses with Liverpool and continental connections were among the sellers here during the early trading.

COTTON IN NEW ORLEANS HOLDS IN NARROW RANGE.

NEW ORLEANS, Nov. 15.—(AP)—
Cotton fluctuated narrowly today and prices developed no special trend. An early advance met selling induced by weakness in other markets and prices eased 11 points but recovered six points at the end. The close was steady at net advances of 1 to 3 points. Trading was fairly active.

The opening was firmer and 6 to 8 points up owing to an advance in sterling to 5.38 1-2. Liverpool was a shade lower than due. Private cables stated that hedge selling in Liverpool was offset by buying by Bombay and the trade but there was continental selling attributed to switching from American markets in consequence of high sterling exchange. HOLDS IN NARROW RANGE.

Daily Bond Averages

By VICTOR EUBANK. NEW YORK, Nov. 15.—(P)—The bond market again looked through dark glasses today and generally de-clining prices ruled in all domestic

dark glasses today and generally declining prices ruled in all domestic categories.

The dollar continued to drop sharply in foreign exchange markets notwithstanding the fact that the Reconstruction Finance Corporation for the second time since the gold control program was inaugurated, failed to boost the price of the metal.

There were a few mild rallies in the final hour, but the average for 60 domestic corporate issues recorded another loss of sixtenths of a point. Sales totaled \$16,653,000, par value.

While most United States government securities were again in demand the selling volume was only about \$4,400,000 against nearly \$9,000,000 yesterday. Recessions in the federal section ranged from one-thirty-second to eighteen-thirty-seconds of a point. Some foreign obligations responded to the further advance in exchanges. Both the Freach 7s and 7 1-2s reached new peaks with gains of 7 and 5 points, respectively.

Rails and utilities were the heaviest corporation losers. Among the carrier casualties of 1 to 3 or more were some liens of Alleghany Corporation, Baltimore & Ohio, Louisville & Nashville, Pennsylvania, and Southern.

American Telephone loans eased, while others off a point or more, included bonds of International Telephone, and Western Union.

Officers Lose Control Of Chemical Company

RICHMOND, Va., Nov. 15.—(R)—George S. Kemp and his associates lost their fight for control of the Virginia-Carolina Chemical Corporation today when Judge William A. Moncure in the chancery court declared the eight Richmond directors elected to the board by prior preference stockholders on October 11 were not properly elected.

The court held that the directors must now be elected by the vote of all classes of stock, each having one vote.

CHICAGO, Nov. 15 .- (A)-Shake CHICAGO, Nov. 15.—(P)—Shaken by uncertain monetary prospects, grain values underwent decided tumbles today.

A late disconcerting factor was announcement that a cargo of spring wheat had been loaded at Duluth for shipment to Chicago and that durum wheat from Canada was being bought for import to Minneapolis.

Wheat closed nervous, 1 7-8 to 2 3-8 cents under yesterday's finish; corn 1 3-8 to 1 3-4 down; oats 1 1-4 to 1 1-2 off, and provisions varying from 17 cents decline to 7 cents advance.

Corn and oats prices followed the action of wheat, despite wintry weather likely to increase feeding demand.

Provisions averaged lower, influenced mainly by down turns of cereals.

GEORGIA CASH CROPS SHOW BIG INCREASE

ATHENS, Ga., Nov. 15 .- (4P)-Production of the more important crops for which Georgia farmers receive cash was shown in an indication re-port of the Georgia crop reporting service today as considerably larger than 1932, ranging from 8 per cent gain for peanuts to 376 per cent for tobacco.

tobacco.

The report as of November, also showed that weather conditions throughout nearly all of October was favorable for harvesting, and for seeding of small grains.

The indicated production of corn was shown as 37,400 bushels, or 3 per cent less than 1932. The probable production of peanuts was said to be 247,825,600 pounds, and pecan production was estimated at 6,300,000 pounds, more than double the 1932 production.

PRICE OF RAW GOLD

REMAINS UNCHANGED

WASHINGTON, Nov. 15.—(P)—
The administration today fixed the price of domestic newly mined gold at a point far below the dollar figure.
The dollar, meanwhile, fell from \$5.27 1-2 to the pound at the London opening to \$5.37 1-2. This in turn carried the dollar value of gold at London from \$34.03 to \$34.68.

By contrast, the price of RFC purchases of new mined gold was set at \$33.56, unchanged from yesterday.

Margaret Meader's Dressler Poem Entered in National Competition

Miss Margaret Meaders, of Dahlongea, Ga., made a long-distance telephone call Wednesday to The Constitution, she was that interested in the paper's Marie Dressler poetry contest. Miss Meaders wanted to know if the selection of a poem for the national contest would be announced this morning. If her call had been received four hours later, she would have been told that the selection not only is being announced this morning, but that her poem won.

So, thus closes The Constitution's contest. Miss Meaders' poem, judged the best of the week, will be sent immediately to Hollywood, where it will be judged by Miss Dressler for the national award of \$250, offered by Metro-Goldwyn-Mayer.

Seven first prize winners of the week, one from each day, were examined by the judge in selecting an entrant for the national contest held in celebration of Miss Dressler's 62d birthday.

During the week, one person each day received \$2.50 from The Constitution as first prize money and another received a pair of tickets for the selection and place and place.

Culla Good fat bulls 250 down Board To Pass on Drunken' Drivers Suggested by Judge Jesse Wood

The problem of handling cases of persons charged with driving while intoxicated will be greatly facilitated if suggestions of Judge Jesse M. Wood are carried out. Judge Wood Wednesday, in handling 14 such cases, expressed the opinion that a board should be created to pass upon the state of such persons immediately after their arrest, thus giving the courts the benefit of actual knowledge when the case comes to trial.

A system such as in vogue in Philadelphia and other eastern cities operates along these lines, Judge Wood said, could in his opinion be accomplished in city council, without the necessity of state legislative action. Judge Wood has suggested that there men constitute the proposed board, one of them to be a physician.

"So many men come into court and say that they just had a little drink and were not under the influence of liquor." Judge Wood said in a statement Wednesday night, "that it is extremely difficult to decide whether her wednesday night, "that it is extremely difficult to decide whether hey come within the provisions of the law, which states that no person shall drive an automobile while under the influence' of liquor.

Voters' League Backs Jury in 2d Ward Race

Standing squarely behind findings of the September-October grand jury, which contended that Howard C. Mc-Cutcheon was not the nominee in the second ward councilmanic contest in the September 20 primary, the Atlanta League of Women Voters Wednesday recommended that an independent candidate enter the December 6 race for the election.

pendent candidate enter the December 6 race for the election.

Asserting that such an entry would not be a violation of the principles of the primary, but "will be a protest against the improper conduct of such primary," the league held with the grand jury that McCutcheon was not the nominee. although he has been certified as the nominee and his name will appear on the ballot in the general election.

McCutcheon had a one-vote majority on the face of returns in the primary over the incumbent Councilman Warren Leak. A contest was filed and the grand jury urged that Leak be declared the nominee or that no nomination be declared that the race be run over in the October 3 runover. Recommendations of the grand jury

Recommendations of the grand jury were not followed by the democratic executive committee.

\$400,000 FI. FA. SALE

SOUGHT BY KEY, WEST Sale of \$400,000 worth of 1933 ft. fas. will be recommended Monday to council by Mayor James L. Key and City Comptroller B. Graham West to meet obligations to banks and to provide salaries for municipal employes for the remainder of the year.

Elyea. Inc., will place a bid for \$250,000 worth of the securities and another firm will seek another \$150,000 worth, according to plans.

Atlanta now owes banks \$1,000,000, which is past due, and it must provide about \$750,000 to meet pay rolls for November and December. Sale of the securities appears the only way out of the dilemma.

Plan Tag Day.

Big Bethel A. M. E. church will hold a "Tag Day" Saturday. The proceeds from the sale of the tags will be used to reduce the bonded indebtedness of the church.

In Series of 25 Fires

Twenty-five fires in and near Atlanta Wednesday caused damage to residences, apartment houses, automobiles and grass and wooded sections, according to reports of firemen. A fire in a residence at 1583 Jonesboro road, outside the city, occupied by C. B. Barrow, spread to houses on each side and caused considerable damage to all three.

Mrs. Mamie Latty suffered a burned hand in fighting flames which firemen said were caused by carelessness with an electric iron in her residence at 635 Bonaventure avenue. N. E. Only slight damage was caused, as was the case when "carelessness with matches" in the apartment of Mrs. C. O. Merck, 607 Seminole avenue. Started another fire.

games from the Ramblers.

Lawson opened with a 127 game, collected 134 pins in the second as he had the makings of a record set, but fate was unkind to him in the final game as he had continued splits with the exception of one frame and finished with a 98 score for a 359 three-game fotal. Burns, team mate of Lawson, had the high individual game of the evening, a 146, and the Guest team gained an advantage on the second place Atlanta Baking Company team as they dropped two games to the DeFoor & Austin quintet.

Other high scores bowled were Stokes, 334; Yarborough, 322; Burns, 340; Tyler, 337; Brown, 320 and Nygard, 323.

Punts With Vols

NASHVILLE, Tenn., Nov. 15.—

(P)—For the first time in more than six years Vanderbilt supporters hope to see the Commodores put up a kicking duel with the Tennessee Volunteers when the teams clash Saturday at Knoxville. Not since the days of Tommy Ryan, tall Vanderbilt end who sent high spirals 50 and 60 yards, has a Gold and Black kicker successfully matched punts with the Volunteers. But this year Rand Dixon, sophomore quarterback whose long kicks already have helped his mates out of a number of tight places, is looked to for answering boots from the toe of Beattie Feathers, Vol kicker. The varsity scrimmaged against Tennessee running plays today.

Last year he was a handy man for the Giants he was a handy man for the Giants in something like a third of the team's games and Bill Terry says he is a cinch to become a real star in the Southern next year. He batted only .228 for the Giants, but was a .300 hitter in the Texas league the year before.

James, one of the diminutive but speedy types of second-basement, is quite a base stealer. He is a fine fielder and an extremely good hitter for his size.

FAST SHAPING UP.

The Crackers were taking form fast with these purchases and a deal for a first-string catcher was nearing conclusion this afternoon. Before the officials leave here they hope to have the club well set for the 1934 race, but still must add a few pitchers and possibly an outfielder.

"In buying these players, I have had an eye, not only for hitting, but for their speed," declared Manager Abbott. "All of these infielders, Taylor, James and Knothe—hustlers and can run, and I don't want a slow ball club."

REGULARS WATCH.

Phillips, Peterson, Roberts and Davis watched the serimmage from the sidelines. Phillips played a short time but was replaced by Dean.

Pee Wee Williams and Tharpe, regular Tech tackles, were not scrimmaged, nor was Poole, regular center, or John Wilcox.

The Tech coaches were giving the reserve men plenty of action in preparation for the tough Tidesmen.

Saturday's game should be one of the greatest battles the south has seen in a long, long time. Coach Frank Thomas and his Alabama team are really fighting mad. There are no "bear stories" coming out of either camp. Alabama has full strength and isn't attempting to conceal the fact. Tech is ready to shoot "what works are left."

Before scrimmage yesterday Tech held a long dummy scrimmage on of-held a long dummy sc

with Harry Taylor, also a capane fielder.
These tradings and buyings, as usual, gave Atlanta the honor of being the most active club at the minor league meeting. Birmingham traded Woodley Abernathy and Bill Atwood to Baltimore for Buzz Arlett, the big hitter, and John Prudhomme, a pitcher, to attain second honors.

A little more trading and the At-A little more trading and the Atlanta officials will be homeward bound feeling that their job of reassembling a club has an excellent start. For once the Crackers are buying in November and not in December and January.

Heavy Trades Force Bramham To Issue Report

GALVESTON, Texas, Nov. 15.—
(UP)—Trading and bartering of players occupied attention of delegates to the annual convention of the National Association of Professional Baseball Leagues so much today that William G. Bramham, of Durham, N. C., president, could not deliver his annual report.

Thursday evening at 7:30 e'clock the Bell System, Power Club (men and ladies), Junior Chamber of Commerce (men and ladies), duckpin leagues resume play at Blick's Bowling Center. In the Bell System the Repeaters are slated to play the Steppers, Phantoms vs. Ringers, Connectors, vs. Plugs, Resistances vs. Cross Arms.

The second round of the Power Club League (men) will have Sales vs. Consumers, Accounting vs. Transportation, and Operating vs. Distribution.

The Junior Chamber of Commerce Ladies and the Power Club Ladies leagues will lend much added color to the evening's bowling schedule.
